

### CAVEFAST™

Our trademarked CaveFast™ caving sections are the quickest and cheapest way of introducing a Hangfast caving system to your facility.

By using standard moulded pieces we have created an 'off the shelf' product that allows for transparent quoting and the possibility to "build your own cave".

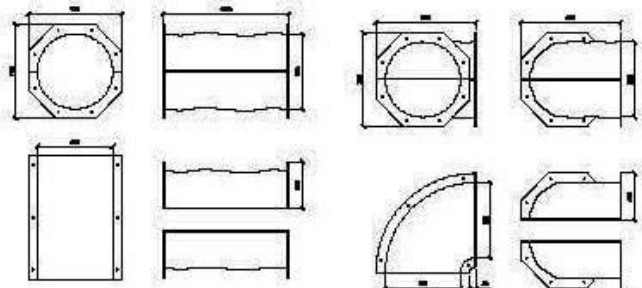

CaveFast™ consists of 1m straight, 90 degree, 45 degree and T sections allowing you to create a truly 3 dimensional and exciting system. By using a standard flange system we have allowed for the addition of our bespoke features, such as a ball pool sump, to be easily connected, adding even more adventure to your Cavefast™ product.

#### Prices

CaveFast™ 600mm Straight:	£ 298 - € 385
CaveFast™ 600mm 90 degree:	£ 240 - € 300
CaveFast™ 600mm 45 degree:	£ 240 - € 300
